

## Syllabus for General Duty Security Guard (Unarmed)

|                                      |  |
|--------------------------------------|--|
| <b>Course Name</b>                   | General Duty Security Guard (Unarmed)  |
| <b>Sector</b>                        | MANAGEMENT & ENTREPRENEURSHIP AND PROFESSIONAL   |
| <b>Course Code</b>                   | MEP/2024/GDSG/421  |
| <b>Level</b>                         | 3  |
| <b>Occupation</b>                    | General Duty Security Guard (Unarmed)  |
| <b>Job Description</b>               | The job role of a General Duty security guard involves safeguarding people, property and assets by monitoring for suspicious activities, enforcing security protocols and responding to emergencies. They may patrol assigned areas, conduct access control checks, operate surveillance equipment, manage traffic and collaborate with law enforcement when needed. Overall, security guards play a crucial role in maintaining a safe and secure environment for individuals and organizations.  |
| <b>Course Duration</b>               | <b>Total Duration 390 Hrs. (T-90, P-180, OJT-60 and ES-60)</b>   |
| <b>Trainees' Entry Qualification</b> | Grade 10 – Regular OR Vocational<br>OR<br>Grade 8 pass with two years of (NTC/ NAC) after 8th<br>OR<br>Grade 9 pass and pursuing continuous schooling in regular school<br>OR<br>10th grade pass and pursuing continuous schooling<br>OR<br>9th grade pass with 1-year relevant experience<br>OR<br>8th grade pass with 2-year relevant experience<br>OR<br>Previous relevant Qualification of NSQF Level 2.5 with 1.5-year relevant experience<br><br><b>Note:</b><br>a) Candidates should be in good mental and bodily health and free from any physical deformities likely to interfere with efficient performance of the duties. |
| <b>Trainers Qualification</b>        | Degree in any discipline with one year experience in the relevant field.<br><b>OR</b><br>3 years Diploma from a recognized board/institution with two-year experience in the relevant field.<br><b>OR</b><br>Defence/security/military/paramilitary/police officer/JCOs/NCOs with 05 years of experience in the relevant field.  |

Structure of Course:

| Module No.   | Module name  | Outcome   | Compulsory/<br>Elective | Theory (Hrs.) | Practical (Hrs.) | OJT (Hrs.) | Total (Hrs.)<br>[Multiple of 30] |
|--------------|--|---|-------------------------|---------------|------------------|------------|----------------------------------|
| 1.           | <b>Introduction to Security Operations and Physical Fitness Training</b> | Interpret the role and responsibilities of a security guard and develop physical fitness for effective security operations. | Compulsory              | 10            | 20               |            | 30                               |
| 2.           | <b>Technology in Security</b>  | Utilize technology for enhanced security monitoring.  | Compulsory              | 10            | 20               |            | 30                               |
| 3.           | <b>Access Control</b>  | Implement access control measures, manage entry/exit points and enforce security protocols.                                 | Compulsory              | 10            | 20               |            | 30                               |
| 4.           | <b>Patrolling, Security Drills and Surveillance Techniques</b>           | Develop effective patrolling and surveillance techniques.   | Compulsory              | 10            | 20               |            | 30                               |
| 5.           | <b>Emergency Response and Crisis Management</b>                          | Apply crisis management and emergency response protocols.   | Compulsory              | 10            | 20               |            | 30                               |
| 6.           | <b>Parking and traffic management.</b>                                   | Perform effective Parking and traffic management duty.  | Compulsory              | 10            | 20               |            | 30                               |
| 7.           | <b>Multi-Sector Exposure</b>   | Perform effective security duty in various types of commercial and industrial establishments.                               | Compulsory              | 30            | 60               |            | 90                               |
| 8.           | <b>OJT</b>   | Work in real job situation with special emphasis on basic safety and hazards in this domain (OJT).                          | Compulsory              | -             | -                | 60         | 60                               |
| 9.           | <b>Employability Skill</b>   | As per guided curriculum  | Compulsory              | 60            | -                | -          | 60                               |
| <b>TOTAL</b> |  |   |                         | <b>150</b>    | <b>180</b>       | <b>60</b>  | <b>390</b>                       |

**SYLLABUS:****Module No. 1: Introduction to Security Operations and Physical Fitness Training**

**Outcome:** Interpret the role and responsibilities of a security guard and develop physical fitness for effective security operations.

**Theory Content:**

- Explore the different sectors within the security industry (e.g., private security, public security, corporate security).
- Primary duties and responsibilities of a security guard.
- Importance of professionalism, integrity, and confidentiality in security work.
- Interpret the relevant laws, regulations, and standards governing security operations e.g., Indian Penal Code (1860), Criminal Procedure Code (1973)
- Importance of adhering to legal and ethical guidelines while performing security duties

**Practical Content:**

- Follow personal cleanliness and hygienic practices.
- Practice routine for improving the physical fitness in terms of agility, stamina and strength to be able to deal with aggression and violence when the need arises.
- Perform warm-up exercises e.g. Jogging, Arm circles and shoulder rolls, Leg swings and lunges, Neck rotations and trunk twists etc.
- Carry out Cardiovascular training e.g., interval training, Jumping jacks or high knees, Stationary cycling or brisk walking etc.
- Perform Strength training and flexibility and mobility exercises: Arm swings, leg swings, hip circles, and torso twists for improved range of motion. Downward dog, child's pose, cat-cow stretch and spinal twists to enhance flexibility and core strength.
- Practices of good House Keeping.
- Practice wearing Uniform properly

**Module No. 2: Technology in Security**

**Outcome:** Utilize technology for enhanced security monitoring.

**Theory Content:**

- Principles of operation for HHMD (Hand held metal detector), DFMD (Door frame metal detector), firefighting equipment, CCTV systems, night vision cameras, binoculars, and alarms/sensors.
- Maintenance and troubleshooting security equipment to ensure optimal performance.
- Standard operating procedures (SOPs) for conducting security checks with HHMD and DFMD.
- Fire safety protocols, including evacuation procedures, handling of flammable materials, and using firefighting equipment.
- Explain CCTV monitoring protocols, incident documentation, and reporting procedures.
- Discuss about surveillance techniques, including observation skills, use of night vision equipment, and binoculars.
- Interpret alarm/sensor readings and respond appropriately to security incidents.
- Explain about privacy rights, ethical conduct, and maintaining confidentiality in security roles.

**Practical Content:**

- Demonstrate use of Hand-Held Metal Detector (HHMD) for pat-down searches.
- Show the proper technique for scanning individuals with Hand-Held Metal Detector (HHMD).
- Setup and operate Door Frame Metal Detector (DFMD).

- Observe and interpret the readings of Door Frame Metal Detector (DFMD) in a simulated environment.
- Identifying common items that may trigger alarms and handle such situations.
- Identify different types of firefighting equipment and interpret uses.
- Operate fire extinguisher and deploy fire blanket.
- Identify organic flammable liquids and industrial chemicals commonly found in the premises.
- Operate the CCTV monitoring system.
- Identify suspicious behavior or incidents on the CCTV footage in a simulated environment.
- Perform effective night time surveillance.
- Identify various alarms and sensors used in the facility.
- Conduct drills and respond appropriately to different alarm activations.
- Maintain and troubleshoot security equipment to ensure optimal performance.

### **Module No. 3: Access Control**

**Outcome:** Implement access control measures, manage entry/exit points, and enforce security protocols.

#### **Theory Content:**

- Familiarize with the layout of the premises. Know the entry and exit points, restricted areas, and vulnerable spots.
- Procedure for Establishing checkpoints at entry and exit points and check individuals entering or leaving the premises.
- Identity verification process of individuals entering the premises using various methods such as ID cards, badges, or digital verification systems.
- Enhance communication skills to greet visitors courteously, convey security protocols clearly, and report incidents promptly to appropriate authorities or supervisors.
- Visitor logs management procedure to record visitor information and monitor visitor movements within the premises.
- Emergency procedures such as fire evacuation plans, medical emergencies, or security breaches.
- Communication codes or signals for alerting personnel about access control issues or security incidents.

#### **Practical Content:**

- Identify the entry and exit points, restricted areas, and vulnerable spots of the premises.
- Establish checkpoints at entry and exit points and check individuals entering or leaving the premises.
- Verify the identity of individuals entering the premises using various methods such as ID cards, badges, or digital verification systems.
- Greet visitors politely, convey security protocols clearly, and report incidents promptly to appropriate authorities or supervisors.
- Maintain visitor logs to record visitor information and monitor visitor movements within the premises.
- Verify contractor/vendor credentials, check work orders or permits, and coordinate their access with relevant departments.
- Conduct drills simulating emergency scenarios (e.g., fire alarm, medical emergency) and manage access control during evacuations or lockdowns.
- Use communication codes or signals for alerting personnel about access control issues or

security incidents.

#### **Module No. 4: Patrolling, Security Drills and Surveillance Techniques**

**Outcome:** Develop effective patrolling and surveillance techniques.

##### **Theory Content:**

- Discuss the objectives and importance of patrolling in security operations, such as deterrence, detection, and response to security incidents.
- Explain different patrol techniques, including random patrols, fixed-point patrols and directed patrols.
- Explain the importance of clear communication, coordination with emergency services, and conducting post-drill evaluations to identify areas for improvement.
- Introduce the fundamentals of surveillance, including the use of observation skills, situational awareness, and discretion.
- Explore surveillance techniques, such as stationary surveillance, mobile surveillance, covert surveillance, and overt surveillance, highlighting the appropriate use of each technique based on the situation.
- Discuss communication protocols, including using two-way radios, communication codes or signals and emergency communication channels.

##### **Practical Content:**

- Interpret provided site map or layout of the premises.
- Conduct patrols, focusing on observing for any anomalies, unauthorized access points, or suspicious behavior.
- Perform different types of security drills, such as lockdown drills, evacuation drills, and response drills.
- Simulate security incidents or scenarios (e.g., fire alarm activation, intrusion attempt) using props or role-playing.
- Initiate the appropriate security drill based on the simulated incident and practice executing the drill procedures, including alerting authorities, evacuating occupants if necessary, and securing the area.
- Set up surveillance scenarios using surveillance cameras or role-playing.
- Practice surveillance techniques, such as maintaining a hidden position, using binoculars or zoom features for distant observation, and documenting observations.

#### **Module No. 5: Emergency Response and Crisis Management**

**Outcome:** Apply crisis management and emergency response protocols.

##### **Theory Content:**

- Different types of emergencies (fire, medical, security) may encounter during duty.
- Crisis management process for different crisis scenario (e.g., natural disaster).
- Discuss and make decisions on response strategies, resource allocation, communication channels, and coordination with external agencies for given crisis scenario.
- Interpret evacuation maps or plans for the premises.
- First aid and basic medical procedures (e.g., CPR, bandaging, using AED).

**Practical Content:**

- Identify different types of emergencies (fire, medical, security) may encounter during duty.
- Conduct simulated emergency scenarios and respond to each scenario using props or role-playing (e.g., fire alarm activation, medical emergency, suspicious package).
- Develop crisis management plan for a crisis scenario (e.g., natural disaster).
- Simulate an evacuation scenario (e.g., fire drill, bomb threat) and conduct an orderly evacuation of occupants.
- Select clear evacuation routes, assembly points, headcounts, and assisting individuals with disabilities or special needs during evacuations.
- Provide first aid and demonstrate basic medical procedures during medical emergency scenario (e.g., CPR, bandaging, using AED).

**Module No. 6: Parking and traffic management**

**Outcome:** Perform effective Parking and traffic management duty.

**Theory Content:**

- Introduction to parking layout or map of the premises.
- Interpret parking policies, designated parking areas, and regulations (e.g., reserved parking, visitor parking, handicap parking).
- Procedure to managing parking spaces and monitoring parking violations.
- Identify appropriate parking spots, address parking violations, and assist drivers as needed.
- Techniques to Set up designated traffic control area using cones or barriers.
- Importance of handheld traffic control signs and high-visibility vests for parking management.
- Discuss about importance of communication and coordination using two-way radios to manage traffic flow effectively.
- Interpret procedure for redirecting traffic, clearing emergency vehicle routes, and assisting emergency responders as needed.

**Practical Content:**

- Interpret parking layout or map of the premises.
- Interpret parking policies, designated parking areas, and regulations (e.g., reserved parking, visitor parking, handicap parking).
- Demonstrate skills to manage parking spaces and monitor parking violations.
- Conduct simulations and guide vehicles to appropriate parking spots, address parking violations, and assist drivers as needed.
- Set up designated traffic control area using cones or barriers.
- Utilize handheld traffic control signs and high-visibility vests for parking management.
- Simulate traffic scenarios (e.g., entrance/exit congestion, pedestrian crossings) and direct traffic, manage intersections, and ensuring pedestrian safety.
- Practice communication and coordination using two-way radios to manage traffic flow effectively.
- Conduct drills and practice redirecting traffic, clearing emergency vehicle routes, and assisting emergency responders as needed.

**Module No. 7: Multi-Sector Exposure**

**Outcome:** Perform effective security duty in various types of commercial and industrial establishments.

**Theory Content:**

- Different commercial and industrial establishments engage in varied businesses: Commercial Domain includes residential areas, educational institutions, banks, ATMs and Business Parks.
- Recognize and address domain-specific risks at places like offices, shops, warehouses, hotels, restaurants, hospitals, malls, markets, theaters, exhibitions, events, public areas, tourist spots and monuments.
- Techniques at the screening, patrolling, CCTV monitoring, access control, alarm response, and emergency assistance and search point
- Frisking process for unauthorized items.
- Screening and search operations based on laid down procedures.
- Using common scanning and searching equipment- i.e Handheld scanner, Doorframe scanner, under vehicle mirror for searching people.
- Different crisis situations e.g. disaster, crowd management, flash crowd.
- Incident briefing and reporting.

**Practical Content:**

- Carry out activities such as patrolling, CCTV monitoring, access control, alarm response, and emergency assistance.
- Manually frisk people and search their baggage for unauthorized items.
- Perform screening and search operations based on laid down procedures.
- Perform manual check of the boot, bonnet, base of the vehicle.
- Search people, baggage and vehicles using common scanning and searching equipment- i.e Handheld scanner, Doorframe scanner, Under vehicle mirror.
- Perform mock Drill for disaster, crowd management and flash crowd.
- Practice for incident briefing and reporting.
- Practice communications on two-way radios or communication devices.
- Carry out fire drill.

**Module 8: OJT**

**Outcome:** Work in real job situation with special emphasis on basic safety and hazards in this domain

**Practical Content:**

Assessor will check report prepared for this component of Practical training of the course and assess whether competency has been developed to work in the real job situation with special emphasis on basic safety and hazards in this domain. (The trainee is expected to undertake work in actual workplace under any supervisor / contractor for **60 Hours.**)

**Module 9: Employability Skills (60 Hrs)**

**Key Learning Outcomes****Introduction to Employability Skills**

Duration: 1.5

Hours

After completing this programme, participants will be able to:

1. Discuss the Employability Skills required for jobs in various industries
2. List different learning and employability related GOI and private portals and their usage

**Constitutional values - Citizenship**

Duration: 1.5

Hours

3. Explain the constitutional values, including civic rights and duties, citizenship, responsibility towards society and personal values and ethics such as honesty, integrity, caring and respecting others that are required to become a responsible citizen
4. Show how to practice different environmentally sustainable practices.

**Becoming a Professional in the 21st Century**

Duration: 2.5

Hours

5. Discuss importance of relevant 21st century skills.
6. Exhibit 21st century skills like Self-Awareness, Behavior Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn etc. in personal or professional life.
7. Describe the benefits of continuous learning.

**Basic English Skills**

Duration: 10

Hours

8. Show how to use basic English sentences for everyday conversation in different contexts, in person and over the telephone
9. Read and interpret text written in basic English
10. Write a short note/paragraph / letter/e -mail using basic English

**Career Development & Goal Setting**

Duration: 2 Hours

11. Create a career development plan with well-defined short- and long-term goals

**Communication Skills**

Duration: 5 Hours

12. Demonstrate how to communicate effectively using verbal and nonverbal communication etiquette.
13. Explain the importance of active listening for effective communication
14. Discuss the significance of working collaboratively with others in a team

**Diversity & Inclusion**

Duration: 2.5 Hours

15. Demonstrate how to behave, communicate, and conduct oneself appropriately with all genders and PwD
16. Discuss the significance of escalating sexual harassment issues as per POSH act.

**Financial and Legal Literacy**

Duration: 5 Hours

17. Outline the importance of selecting the right financial institution, product, and service
18. Demonstrate how to carry out offline and online financial transactions, safely and securely
19. List the common components of salary and compute income, expenditure, taxes, investments etc.
20. Discuss the legal rights, laws, and aids

### **Essential Digital Skills**

Duration: 10 Hours

21. Describe the role of digital technology in today's life
22. Demonstrate how to operate digital devices and use the associated applications and features, safely and securely
23. Discuss the significance of displaying responsible online behavior while browsing, using various social media platforms, e-mails, etc., safely and securely
24. Create sample word documents, excel sheets and presentations using basic features
25. utilize virtual collaboration tools to work effectively

### **Entrepreneurship**

Duration: 7 Hours

26. Explain the types of entrepreneurship and enterprises
27. Discuss how to identify opportunities for potential business, sources of funding and associated financial and legal risks with its mitigation plan
28. Describe the 4Ps of Marketing-Product, Price, Place and Promotion and apply them as per requirement
29. Create a sample business plan, for the selected business opportunity

### **Customer Service**

Duration: 5 Hours

30. Describe the significance of analyzing different types and needs of customers
31. Explain the significance of identifying customer needs and responding to them in a professional manner.
32. Discuss the significance of maintaining hygiene and dressing appropriately

### **Getting Ready for apprenticeship & Jobs**

Duration: 8 Hours

33. Create a professional Curriculum Vitae (CV)
34. Use various offline and online job search sources such as employment exchanges, recruitment agencies, and job portals respectively
35. Discuss the significance of maintaining hygiene and confidence during an interview
36. Perform a mock interview
37. List the steps for searching and registering for apprenticeship opportunities

Learning Outcome – Assessment Criteria

| Module No. | Outcome   | Assessment Criteria  |
|------------|---|--|
| 1          | Interpret the role and responsibilities of a security guard and develop physical fitness for effective security operations. | <p><b>After completion of this module students will be able to:</b></p> <ul style="list-style-type: none"> <li>1.1 Maintain personal cleanliness and hygiene.</li> <li>1.2 Demonstrate physical fitness in terms of agility, stamina and strength to be able to deal with aggression and violence when the need arises.</li> <li>1.3 Explain the primary duties and responsibilities of a security guard.</li> <li>1.4 Interpret the relevant sections of the Indian Penal Code (1860) and the Criminal Procedure Code (1973) pertaining to security operations.</li> <li>1.5 Perform good House Keeping.</li> <li>1.6 Demonstrate proper wearing of the uniform according to established standards..</li> </ul>   |
| 2          | Utilize technology for enhanced security monitoring.  | <p><b>After completion of this module students will be able to:</b></p> <ul style="list-style-type: none"> <li>2.1 Demonstrate Accuracy and proficiency in using HHMD and DFMD.</li> <li>2.2 Demonstrated fire safety procedures and handling of chemicals.</li> <li>2.3 Operating CCTV systems and identifying security threats.</li> <li>2.4 Operate night vision equipment and binoculars for surveillance.</li> <li>2.5 Interpret alarm systems and proper response protocols.</li> <li>2.6 Demonstrate the use of Hand-Held Metal Detectors (HHMD) for pat-down searches.</li> <li>2.7 Identify organic flammable liquids and industrial chemicals commonly found in premises.</li> <li>2.8 Develop strategies for effective nighttime surveillance using night vision cameras and binoculars.</li> </ul>   |
| 3          | Implement access control measures, manage entry/exit points, and enforce security protocols.                                | <p><b>After completion of this module students will be able to:</b></p> <ul style="list-style-type: none"> <li>3.1 Operate the access control system and manage access permissions.</li> <li>3.2 Accurately in verify credentials and grant access to authorized personnel, visitors, contractors, and vendors.</li> <li>3.3 Effectively implement emergency access protocols and coordinate access during drills or simulations.</li> <li>3.4 Maintain visitor logs, monitor access activities, and enforce security protocols consistently.</li> <li>3.5 Demonstrate communication skills and teamwork demonstrated during access control tasks and coordination exercises.</li> <li>3.6 Explain risk management principles related to access control, such as risk assessment, threat modeling, access control audits, and vulnerability management.</li> </ul> |

| Module No. | Outcome   | Assessment Criteria  |
|------------|---|--|
|            |   | 3.7 Select the appropriate access control system (e.g., keypad, card reader) based on the scenario provided.<br>3.8 Demonstrate the process of adding and removing access permissions for authorized personnel.  |
| 4          | Develop effective patrolling and surveillance techniques. | <b>After completion of this module students will be able to:</b><br>4.1 Conduct patrols and identify security concerns accurately and thoroughly.<br>4.2 Execute security drills and follow established protocols.<br>4.3 Implement surveillance techniques and document observations effectively.<br>4.4 Demonstrate ability to communicate clearly and coordinate responses during security tasks.<br>4.5 Comply with safety protocols and procedures throughout the training.<br>4.6 Explore strategies for effective patrolling, including maintaining visibility, varying patrol routes and timings, and conducting thorough inspections of critical areas.<br>4.7 Interpret provided site maps or layouts of premises to determine patrol routes and areas to cover.<br>4.8 Simulate security incidents or scenarios using props or role-playing and practice initiating appropriate security drills.  |
| 5          | Apply crisis management and emergency response protocols. | <b>After completion of this module students will be able to:</b><br>5.1 Respond to simulated emergency scenarios effectively and timely, following established protocols.<br>5.2 Manage crisis, including decision-making, resource allocation, and communication strategies.<br>5.3 Conduct evacuations and provide initial medical care during medical emergencies.<br>5.4 Demonstrate ability to coordinate responses, communicate effectively, and maintain calm under pressure.<br>5.5 Comply with safety protocols, legal requirements, and ethical considerations throughout the training.<br>5.6 Explain the importance of evacuation planning, including identifying evacuation routes, assembly points, emergency exits, and accessible routes for individuals with disabilities.<br>5.7 Provide guidance on basic first aid techniques, CPR, AED use, bleeding control, and treating common medical emergencies, discussing the role of security guards in assessing and providing initial medical care.<br>5.8 Identify different types of emergencies that may be encountered during duty, demonstrating recognition and understanding of potential threats.<br>5.9 Provide first aid training and demonstrate basic medical procedures in simulated medical emergency scenarios, assessing situations and providing initial medical care |

| Module No. | Outcome   | Assessment Criteria  |
|------------|---|--|
|            |   | effectively.   |
| 6          | Perform effective Parking and traffic management duty.  | <p><b>After completion of this module students will be able to:</b></p> <ul style="list-style-type: none"> <li>6.1 Interpret parking layout or map of the premises.</li> <li>6.2 Interpret parking policies, designated parking areas, and regulations (e.g., reserved parking, visitor parking, handicap parking).</li> <li>6.3 Demonstrate skills to manage parking spaces and monitor parking violations.</li> <li>6.4 Conduct simulations and guide vehicles to appropriate parking spots, address parking violations, and assist drivers as needed.</li> <li>6.5 Set up designated traffic control area using cones or barriers.</li> <li>6.6 Utilize handheld traffic control signs and high-visibility vests for parking management.</li> <li>6.7 Simulate traffic scenarios (e.g., entrance/exit congestion, pedestrian crossings) and direct traffic, manage intersections, and ensuring pedestrian safety.</li> <li>6.8 Practice communication and coordination using two-way radios to manage traffic flow effectively.</li> <li>6.9 Conduct drills and practice redirecting traffic, clearing emergency vehicle routes, and assisting emergency responders as needed.</li> </ul> |
| 7          | Perform effective security duty in various types of commercial and industrial establishments. | <p><b>After completion of this module students will be able to:</b></p> <ul style="list-style-type: none"> <li>7.1 Conduct patrolling, CCTV monitoring, access control, alarm response, and providing emergency assistance.</li> <li>7.2 Demonstrated skill in screening and search techniques, including manual frisking, baggage inspection, and vehicle checks.</li> <li>7.3 Respond to incidents during screening and search operations.</li> <li>7.4 Utilize scanning and searching equipment such as handheld scanners, doorframe scanners, and under-vehicle mirrors.</li> <li>7.5 Administer first aid for minor injuries, conduct disaster drills, manage crowds, communicate effectively on radios, and handle fire drills and parking management efficiently.</li> <li>7.6 Conduct mock drills for disasters, crowd management, and flash crowds to apply emergency response procedures.</li> <li>7.7 Communicate on two-way radios or communication devices during security operations.</li> </ul>   |
| 8          | OJT   | Work in real job situation with special emphasis on basic safety and hazards in this domain (OJT).   |

| <b>Module No.</b> | <b>Outcome</b>      | <b>Assessment Criteria</b> |
|-------------------|---------------------|----------------------------|
| 9                 | Employability Skill | As per guided curriculum   |

**List of Tools, Equipment & materials needed for 30 Trainees (Practical)**

| S. No. | Description of Tools and Equipment  | Quantity    |
|--------|---|-------------|
| 1.     | Detectors (Smoke and fire)  | 6 nos.      |
| 2.     | HHMD  | 2 nos.      |
| 3.     | DFMD  | 1 no.       |
| 4.     | Handheld wireless communication (Walky-Talky) Equipment   | 6 nos.      |
| 5.     | Portable Barricade  | 8 nos.      |
| 6.     | Cordoning Tape (Warning)  | 100 meters  |
| 7.     | Flash light/ Torch  | 6 nos.      |
| 8.     | Binoculars  | 1 no.       |
| 9.     | Night vision Camera   | 1 no.       |
| 10.    | Hand baton, whistle and protective Shield (Each)  | 15 nos.     |
| 11.    | CCTV System (Including Cameras and Monitoring System)   | 1 no.       |
| 12.    | Signage Boards (Display boards)   | 6 nos.      |
| 13.    | CPR Charts  | 1 no.       |
